FOREWORD

In accordance with the provisions of the Constitution of the Kingdom of Bhutan, Civil Service Act of Bhutan 2010, and the procedures laid down in the Bhutan Civil Service Rules and Regulations 2018, the Royal Civil Service Commission carries out the recruitment and selection of university graduates into the Civil Service annually through Bhutan Civil Service Examination (BCSE). Civil Service recruitment examination for university graduates was introduced as far back as in 1983 with the objective of streamlining and instituting a proper selection system. Over the years, the recruitment and selection system has been strengthened to attract and select the best and the brightest graduates through healthy and fair competition for appointment in the Civil Service based on the principle of meritocracy.

In continuation to the ‘Report on performance of graduates from different institutions in the Bhutan Civil Service Examination’ published for the last nine years: 2011-2019, the Royal Civil Service Commission is pleased to publish the report on performance of graduates from different institutes in BCSE for 2020. A total of 4400 candidates who studied in 225 different institutes based in 14 different countries appeared the BCSE in 2020.

While there are a few candidates who studied in institutes based in countries such as Australia, Bangladesh, China, Malaysia, Sri Lanka, Thailand, Philippines, Estonia and United States, most candidates who study outside Bhutan are from institutes based in India given its proximity and affordability. 866 candidates completed their studies from India and 3454 candidates from Bhutan.

Sherubtse College, Royal University of Bhutan has topped in terms of the number of graduates being selected in the PGDPA category taking 42% of the available vacancies followed by College of Natural Resources with 22%. While Gedu College of Business Studies took 77% of the PGDFM vacancies. The performance of the candidates would, besides other factors, depend on the quality of teaching and learning in the respective institutes, calibre of the individual candidates, and availability of approved vacancies in the Civil Service for particular year of examination. The RCSC will leave that for the readers to judge.

The ‘Report on performance of graduates from different institutions in the Bhutan Civil Service Examination’ is published every year as an advisory for parents and prospective candidates, and feedback for the institutes.

PRELIMINARY EXAMINATION

The Preliminary Examination is conducted to short-list candidates for the Main Examination (ME) and ensure minimum standard required of a candidate. PE paper is common to all categories of graduates. PE consists of objective type questions designed to test Dzongkha and English communication skills, logic and analytical skills, problem solving and data interpretation abilities of the candidates. The evaluation of the PE answer papers are carried out by Optical Mark Reader (OMR) machine.

PE levels out the differences and variations in subject difficulty levels, assessment schemes and educational standard and quality and provides a level playing field for graduates to compete for the ME. It ensures that graduates meet the minimum core competency standards required of them for recruitment into the Civil Service.
